Re: Westrock Coffee

Company

Registration

Statement on Form S-1

Filed September 20,

2022

File No. 333-267509

Dear Robert McKinney:

We have limited our review of your registration statement to those issues we have

addressed in our comments. In some of our comments, we may ask you to provide us with

information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the  $\,$ 

requested information. If you do not believe our comments apply to your facts and  $% \left( 1\right) =\left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left( 1\right) +\left( 1\right) \left( 1$ 

circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments.

Form S-1 filed September 20, 2022

Cover Page

1. For each of the Shares and Warrants being registered for resale, please disclose the price that the selling

securityholders paid for such warrants and shares.

2. Disclose the exercise price of the warrants compared to the market price of the underlying security. If the

warrants are out of the money, please disclose the likelihood that warrant holders will not

exercise their warrants. Provide similar disclosure in the prospectus summary, risk factors,

MD&A and use of proceeds section and disclose that cash proceeds associated with the

exercises of the warrants are dependent on the stock price. As applicable, describe

the impact on your liquidity and update the discussion on the ability of your company to fund

your operations on a prospective basis with your current cash on hand.

FirstName LastName

3. We note the number of redemptions of your common stock in connection with your  $% \left( 1\right) =\left( 1\right) +\left( 1\right) +$ 

business combination and that the shares being registered for resale will constitute  $\boldsymbol{a}$ 

considerable percentage of your public float. We also note that a significant number of the

shares being registered for resale were purchased by the selling

securityholders for prices considerably below the current market price of the common stock.

Highlight the significant negative impact sales of shares on this registration statement could have on the

public trading price of the common stock.

Risk Factors, page 8

4. Include an additional risk factor highlighting the negative pressure potential sales of

shares pursuant to this registration statement could have on the public trading price of the  $\,$ 

warrants and common stock. To illustrate this risk, disclose the purchase price of the  $\,$ 

securities being registered for resale and the percentage that these shares currently  ${\ }^{\prime}$ 

represent of the total number of shares outstanding. Also disclose that even though the

current trading price is slightly below the SPAC IPO price, the private investors have an

incentive to sell because they will still profit on sales because of the lower price that they

purchased their shares than the public investors.

Management's Discussion and Analysis of Financial Condition and Results of Operations, page 51

5. We note that the projected revenues for 2022 were \$960.4 million, as set forth in the

unaudited prospective financial information management prepared and provided to the  $\,$ 

Board, the company s financial advisors and Riverview in connection with the evaluation

of the Business Combination. We also note that your actual revenues for the  $\operatorname{Six}$  Months

Ended June 30, 2022 was approximately  $$409.8\ million$ . It appears that you may miss

your 2022 revenue projection. Please update your disclosure in Liquidity and Capital

Resources, and elsewhere, to provide updated information about the company s financial

position and further risks to the business operations and liquidity in light of these

circumstances.

6. In light of the number of redemptions and the unlikelihood that the company will receive

significant proceeds from exercises of the warrants because of the disparity between the

exercise price of the warrants and the current trading price of the common stock, expand

your discussion of capital resources to address any changes in the company s liquidity

position since the business combination. If the company is likely to have to seek

additional capital, discuss the effect of this offering on the company s ability to raise  $% \left( 1\right) =\left( 1\right) +\left( 1\right) +$ 

additional capital.

7. Please expand your discussion here to reflect the fact that this offering involves the

potential sale of a substantial portion of shares for resale and discuss how such sales could

impact the market price of the company s common stock. Your

discussion should highlight the fact that R. Brad Martin, a beneficial owner of appx.

14.3% of your outstanding shares, will be able to sell his shares for so long as the registration statement

of which this prospectus forms a part is available for use.

8. We note that the rights of certain investors provide those investors with the right to sell

back securities to the company at a fixed price five and a half years after the closing date

of the business combination. Please revise to discuss the risks that these agreements may

pose to other holders if you are required to buy back the securities as described therein.

For example, discuss how such forced purchases would impact the cash you

have

available for other purposes and to execute your business strategy. General  $\ensuremath{\mathsf{General}}$ 

9. Revise your prospectus to disclose the price that each selling securityholder paid for the

shares and warrants being registered for resale. Highlight any differences in the current

trading price, the prices that the Sponsor, private placement investors, PIPE investors, and

other selling securityholders acquired their shares and warrants, and the price that the  $\,$ 

public securityholders acquired their shares and warrants. Disclose that while the Sponsor,

private placement investors, PIPE investors, and other selling securityholders may

experience a positive rate of return based on the current trading price, the public

security holders may not experience a similar rate of return on the securities they

purchased due to differences in the purchase prices and the current trading price. Please

also disclose the potential profit the selling securityholders will earn based on the current

trading price. Lastly, please include appropriate risk factor disclosure. We remind you that the company and its management are responsible for the accuracy

and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.

Refer to Rules 460 and 461 regarding requests for acceleration. Please allow adequate time for us to review any amendment prior to the requested effective date of the registration statement.

You may contact Alex King at 202-551-8631 or Geoffrey Kruczek at 202-551-3641 with any questions.
